Save
your store
teams!
Drive simplicity, speed and engagement
with Quorso – the agile stores app.

Rescue your teams with agile stores.

Stores are drowning.

- 20+ reports sent to each store each week.
- 8 different apps used regularly.
- 4-6 hours of 'desk' analysis each week.

Hard-working employees are disengaging and leaving.

- 50% of employees say they're overworked and underappreciated.
- 34% of employees say employee engagement is their top operations challenge.

Store operations processes are at breaking point.

- District managers are always on the road and don't know where to focus.
- Store visits based on feel not facts.
- Supply chain issues are frustrating customers.

↑ 30%

workload increase this year due to growth of omnichannel.

↑ 60%

store colleague turnover in 2021.

↓ 8%

of sales leaked every day.

Retailers need to get more agile, right now.

But what does that mean?

- Simplify work for store teams.
- Engage store teams to drive store execution.
- Enable flatter, more flexible operating model.
- Crowdsource store-level issues in real time for central teams.

Agile stores improves sales, waste, shrink and other KPIs in a single ongoing improvement tool.

Meet Quorso.

The only app you need to run an agile store, now available in the Microsoft marketplace.

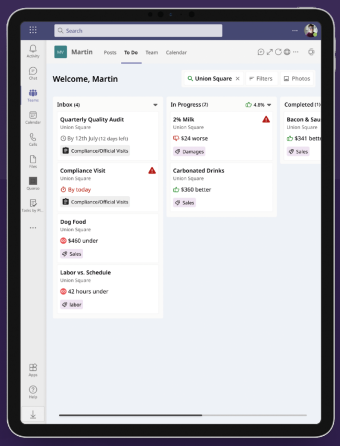
Quorso

Microsoft Partner

01

Simplicity.

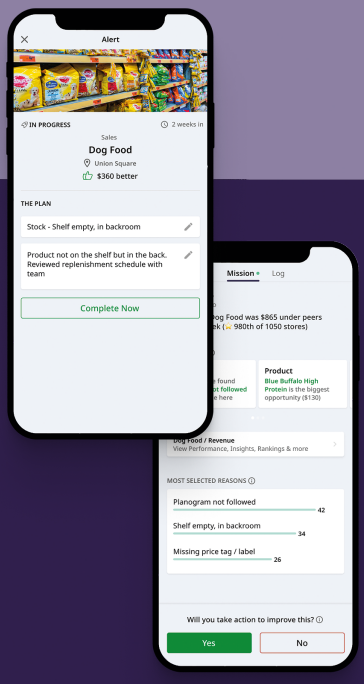
Turn all your data into simple next-best-actions for every store.



02

Speed.

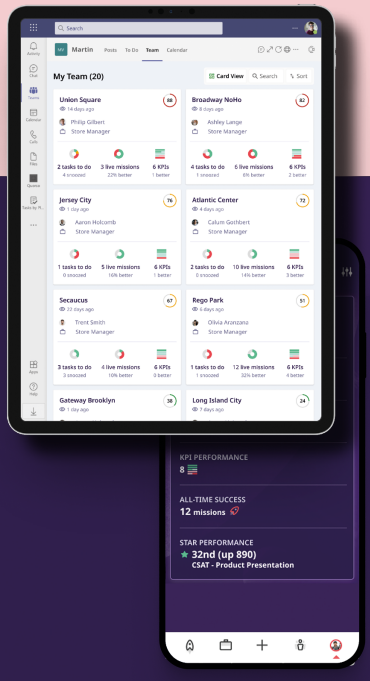
Measure the impact of every action in real time and surface issues to the center.



03

Engagement.

Celebrate your people and motivate them by showing them their personal impact.



> “Quorso saves store leaders time and brings opportunities to their attention without them having to dig on their own.”

– David, VP of Store Operations

The brain that connects Azure + Teams.

Turn data alerts and tasks into smart missions that engage store teams and drive results.

Big, complex retailers love Quorso.

Quorso consolidates and hunts through all your data and tasks to find and prioritize personalized daily missions for every store. The more stores, SKUs and data you have, the more Quorso's next-best-actions will find opportunities to drive improvement across your business.

We work with a number of the world's leading global retailers to solve big, business-wide issues, while fixing smaller, store-specific underperformance too.

3 top 20
global retailers use Quorso.

21,409
live stores (and counting) use Quorso.

But there's nothing complex about getting started with Quorso. 3 steps and 12 weeks to impact:

Weeks 1-4
Prepare

Legals, infosec (we're SOC2 certified), data transfer, app set up (by us), acceptance testing (by you).

Weeks 5-8
Launch

95% of users trained in-app, 90% of stores launch missions in 1st week.

Weeks 9-12
Fine tune

Review results weekly, test and refine performance improvement.

Quorso slots effortlessly into your Microsoft Retail stack. Check us out on the Microsoft marketplace, or contact us for in-depth case studies at contact@quorso.com.
